

# Your voice. Your impact.

You want to create change — and you want to have a say in how it's done. That's why Kiwanis Voices exists! Our program creates Kiwanis clubs exclusively for young adults, ages 18-26, who are passionate about volunteering and giving back.

But it's more than a new club. It's the next step in your service and leadership journey. In a Kiwanis Voices club, you can:

- Create your club's atmosphere.
- Shape your club's projects and meetings — it's truly your own.
- Use your service experience, energy and ideas to make a difference in Kiwanis and your community.
- Grow your network.

Whether you were in Key Club International or CKI, now is the time to start a Kiwanis Voices club with your friends and former club members. Advantages include the ongoing support of your sponsoring Kiwanis club and an annual membership investment of US\$40 per member worldwide — with the return of US\$40 per active member to the club after two years to support a service project.
